

WNS Announces Second Quarter Fiscal 2009 Earnings; Updates Revenue Guidance and Reaffirms Profit Guidance for Fiscal 2009

November 13, 2008

Revenue Increases 29.6%; Revenue Less Repair Payments Increases 52.0% Over the Corresponding Quarter in the Prior Fiscal Year

NEW YORK & MUMBAI, India--(BUSINESS WIRE)--Nov. 13, 2008--WNS (Holdings) Limited (NYSE: WNS), a leading provider of global business process outsourcing (BPO) services, today announced results for the fiscal second quarter 2009 ended September 30, 2008 and reaffirmed its profit guidance for fiscal 2009.

Revenue for fiscal second quarter 2009 at \$149.8 million increased 29.6% over the corresponding quarter in the prior fiscal year, while revenue less repair payments at \$109.0 million increased 52.0% over the same quarter in the prior fiscal year. This growth in revenue less repair payments for the fiscal quarter was primarily due to both the strong organic growth in the global BPO business, and the revenue contributions from Aviva Global Services Singapore Private Limited (AGS) and Call 24/7 Limited, which WNS acquired in July 2008 and April 2008, respectively.

"This was a strong quarter for us as we successfully transitioned new client relationships and completed the first phase of the AGS integration," said Neeraj Bhargava, Group Chief Executive Officer. "We also achieved the milestone of exceeding \$100 million in revenues less repair payments for the first time, while improving our profitability. Our strong performance in this difficult business environment clearly positions us as a leader in the BPO industry."

Net income for fiscal second quarter 2009 was \$0.2 million as against a net loss of \$10.5 million during the corresponding quarter in the prior fiscal year. The net loss during the fiscal second quarter 2008 was due to the write off of goodwill and intangibles related to our mortgage banking focused BPO business whereas the net income in the current quarter was affected by amortization charges from the acquisition of AGS during the quarter.

Adjusted net income, or net income excluding amortization and impairment of goodwill and intangible assets, share-based compensation, and related fringe benefit taxes, was \$11.9 million, an increase of 47.6% over the corresponding quarter in the prior year. The primary drivers of this increase were our revenue growth, tight cost management, and increased income from AGS. WNS also benefited from the revaluation of US dollar-denominated assets, but this benefit was primarily offset by the negative impact of foreign exchange losses from hedging, a one-time tax associated with the AGS transaction, and lower interest income.

WNS recorded a basic income per ADS of \$0.01 for fiscal second quarter 2009. Adjusted income per ADS, or basic income per ADS excluding share-based compensation, related fringe benefit taxes and amortization of intangible assets was \$0.28 for the quarter.

"We have continued to tighten the management of our operations and reduced non-operating costs, both of which have been reflected in this quarter's operating margins," said Alok Misra, Group Chief Financial Officer. "The AGS integration is on schedule and we see additional opportunities to reduce capital expenditure and increase operating leverage."

Financial Highlights: Fiscal Second Quarter Ended September 30, 2008

- Quarterly revenue of \$149.8 million, up 29.6% from the corresponding quarter last year.
- Quarterly revenue less repair payments of \$109.0 million, up 52.0% from the corresponding quarter last year.
- Quarterly net income of \$0.2 million against a net loss of \$10.5 million from the corresponding quarter last year.
- Quarterly adjusted net income (or, net income excluding amortization and impairment of goodwill and intangible assets, share-based compensation, and related fringe benefit taxes) of \$11.9 million, up 47.6% from the corresponding quarter last year.
- Quarterly basic income per ADS of \$0.01, up from a basic loss per share of \$0.25 for the corresponding quarter last year.
- Quarterly adjusted basic income per ADS (or, basic income per share excluding amortization and impairment of goodwill and intangible assets, share-based compensation, and related fringe benefit taxes) of \$0.28, up from \$0.19 for the corresponding quarter last year.

Reconciliations of non-GAAP financial measures to GAAP operating results are included at the end of this release.

Key Organizational Developments

In the past quarter, WNS announced the following key developments to its business:

- The acquisition of AGS, the business process offshoring company providing services to Aviva, and an eight year and four month Master Services Agreement, naming WNS as the long-term strategic BPO services provider to Aviva's UK and Canadian businesses.
- The appointment of Karthik Sarma as Chief People Officer, who will focus on attracting, retaining and developing high quality talent for the WNS organization.

Fiscal 2009 Guidance

WNS provided the following guidance for the fiscal year ending March 31, 2009:

- Revenue less repair payments is expected to be between \$385 million and \$400 million (down from the previously announced \$425 million to \$435 million). This assumes a USD to GBP range of 1.45 to 1.60.
- Net income (excluding amortization and impairment of goodwill and intangible assets, share-based compensation, and related fringe benefit taxes) is still expected to remain between \$46 million and \$49 million.

"Our operating performance continues to be strong but the recent strength of the dollar against the British Pound in particular puts pressure on our non-US revenue and so we have revised our revenue guidance accordingly. However, the dollar has also strengthened considerably against the Indian Rupee and we have hedges in place, which make us comfortable with our profit guidance," continued Misra.

About Non-GAAP Financial Measures

For financial statement reporting purposes, the company has two reportable segments: WNS Global BPO and WNS Auto Claims BPO. In the auto claims segment, which includes WNS Assistance and Chang Limited, WNS provides claims-handling and accident-management services, in which it arranges for automobile repairs through a network of third-party repair centers. In its accident-management services, WNS acts as the principal in dealings with the third-party repair centers and clients.

In order to provide accident-management services, the Company arranges for the repair through a network of repair centers. Repair costs are invoiced to customers. Amounts invoiced to customers for repair costs paid to the automobile repair centers are recognized as revenue. The Company uses revenue less repair payments for "fault" repairs as a primary measure to allocate resources and measure segment performance. Revenue less repair payments is a non-GAAP measure which is calculated as revenue less payments to repair centers. For "Non fault repairs," revenue including repair payments is used as a primary measure. As the Company provides a consolidated suite of accident management services including credit hire and credit repair for its "Non fault" repairs business, the Company believes that measurement of that line of business has to be on a basis that includes repair payments in revenue.

The Company believes that the presentation of this non-GAAP measure in the segmental information provides useful information for investors regarding the segment's financial performance. The presentation of this non-GAAP information is not meant to be considered in isolation or as a substitute for the Company's financial results prepared in accordance with US GAAP.
