

WNS (Holdings) Limited Signs BPO Partnership Agreement With Trintech Group Plc

July 20, 2009

NEW YORK, NY and LONDON and MUMBAI, INDIA, Jul 20, 2009 (MARKETWIRE via COMTEX) – WNS (Holdings) Limited (NYSE: WNS), a leading provider of business process outsourcing (BPO) services and solutions, today announced a strategic partnership with Trintech Group Plc (NASDAQ: TTPA), a leading provider of integrated financial governance, risk management and compliance software solutions. Under the terms of the agreement, WNS will offer its customers financial governance applications, implementation services and technical support in order to maximize efficiencies, tighten controls, and increase ROI from financial operations.

"We are excited about the partnership agreement with Trintech," said Daniel Wollenberg, SVP, Global Transformation Practice. "When organizations decide to embark on a transformation strategy of their finance operations, it is critical to partner with a BPO provider that can offer end-to-end capabilities from global operating models and resulting labor arbitrage, process improvement and best practices, and domain/technology innovations, all while complying with regulatory and governance requirements. The Trintech solution is a key enabler of this capability for our finance clients."

Trintech's Unity financial governance suite, dubbed 'The production platform for Finance,' is a control management framework enabling organizations to plan, perform and report across the entire spectrum of their governance, risk and compliance control efforts. Trintech's solutions will benefit WNS customers by reducing operational costs, shortening cycle times, increasing the accuracy and transparency of financial reporting, and reducing the risk of material weaknesses and restatements.

"We are delighted that WNS has decided to offer Trintech's solutions to its client base. Our combined expertise in helping finance departments achieve operational excellence through automation process control and data-driven insight will result in real benefits for WNS customers," said John Harte, General Manager of Trintech's GRC Division. "And WNS's significant experience across multiple industries can only be complemented by Trintech's own history of success in these markets. We look forward to a long and successful partnership."
